Charter Day Special tour

29.05.2010 (Saturday) Khor Virap / Vernisage, h. 09.00

Khor Virap is one of the most popular destinations in Armenia for a number of reasons, primarily because it is where Grigor Luisavorich (St. Gregory the Illuminator) was imprisoned for 13 years before curing King Trdat III of a disease. This caused the conversion of the king and Armenia into the first officially Christian nation in the world in the year 301.

13:00 Lunch at the restaurant under the open sky in Yerevan.

14:00 Visit to Vernisage in Yerevan

Vernisage is a weekend open market, where in just a few blocks you can see art, carpets, old collections of coins and medallions, jewelry, music, books, carved wood, lace, embroidery, ceramics, posters, food, tools, parts for electronics and even pets. It is open year round, though only on the weekends, except for a rump vernissage held daily at the end of the usual Vernissage venue where it

meets Khanjian Street.

The Vernissage is the perfect place to get a little taste of Armenia and a unique scenario to witness the fusion between national traditions with contemporary taste.

Originally this word represented the inauguration of a temporary exhibition. However, the Vernissage has been proven to be one of the most important and constant elements of Yerevan's cultural life.

It was established in the mid-1980s by Armenian artists who displayed their art in the square in front of the Union of Armenian Artists.
