Club Firenze

Soroptimist for acceptance of diversity

CONVENTION IN OCCASION OF THE 70TH ANNIVERSARY (1949-2019) OF THE CLUB FIRENZE

"The acceptance of diversity" is one of the values supported by our association, together with Human Rights, Volunteering, and Women's Potential. Starting from these principles, which are meant to drive every Soroptimist action, SI Club Firenze proposes this conference as a moment to reflect on the role of women in crucial issues today, such as multiculturalism and the comparison between different ways of thinking and living. In order to introduce and frame the problem, a historian has been invited and professionals involved in health, school, and social commitment who will illustrate how they deal with matters of this magnitude and complexity. As soroptimists and women, we are sure that addressing these issues will be a precious opportunity for reflection and growth.
