

It is our pleasure to invite you to our inauguration on Saturday the 28th September 2019. Given the historical ties with the textile industry, we are proud to celebrate this special day together with you in the Textielmuseum in Tilburg.

Besides the location, the date is also special.

With its introduction on 28th September 1919, the Netherlands was one of the first countries where universal suffrage was introduced. Although a nice step in the emancipation of women, unfortunately the same rights for men and women are not yet self-evident.

Even in 2019, we still have to draw attention to the position of women and girls. Through our charity, the construction of a schoolroom in Kibandaongo, Kenia, we contribute to the development of girls. <https://www.medischcentrumkenia.nl>

During the afternoon program attention will be paid to emancipation and diversity from different angles.
